MEMORANDUM FOR THE DIRECTOR

SUBJECT: Intelligence Collection Guidance

This is the collection guidance package which Ray Cline mentioned at the morning meeting today. I believe it is at least partially responsive to your request of 2 November to me that we attempt to "package" collection guidance so that it would be a stimulus to all agencies who might be in a position to make a contribution.

I suggest that you scan this material before the Collection Guidance Staff of DD/I briefs you within the next few days. I believe that it is the proper Agency component to undertake this particular assignment, and you may wish to give us more specific guidance following the briefing.
